Plan ahead with HEATCARE

At Clarity Heating we don't want our customers to worry about when their boiler's annual service is due, or what will happen if their heating stops working when the weather turns cold and perhaps finances are a bit tight. So, we've introduced HeatCare to ensure you never have to worry again.

With HeatCare you can now plan ahead for everything, from the next service, to knowing you'll be looked after if either the boiler and controls or something in your heating system goes wrong.

Four payment plans to choose from

HeatCare offers four payment plans so you can decide which plan is right for you.
